Nosea Global

Nosea Global navigates through Mexico's complex import environment and turns regulatory barriers into operational efficiency.

Key Hurdles for Imports to Mexico

Complex Classification System

Dual classification system (HS + TIGIE)
Mishandling of cargo due to documentation errors

Complex Doc. Requirements

Mandatory local documentation requirements (Carta Encomienda, Pedimento, Proforma, etc.)

High inspection & Cargo Delay

High inspection rate for inbound cargo
Frequent delays due to customs procedures

NOSEA GLOBAL's Solutions

TIGIE classification Consulting

Validation of classification before shipment
Elimination of misclassification risks and penalty exposure

Doc. Compliance Management

Full support for mandatory customs docs.
Error-free preparation through expert broker collaboration

On-Site Clearance Control

Dedicated on-site clearance response team
Reduced lead time through proactive issue handling

Nosea Global, S.A. DE, C.V. All Rights Reserved
